Six field hospitals are operationalized,
with a focus on maternal and child healthcare.

Pakistan: 2022 Monsoon Floods

According to the National Disaster Management Authority (NDMA), this year's monsoon rains across the country have broken a 30-year record. Massive devastation has been witnessed across Pakistan from Gilgit Baltistan in the north of the country to Karachi in the south. Consequently, rains have destroyed critical basic infrastructure including houses, crops, roads, bridges, schools, hospitals and public health facilities. As per NDMA's October 31 report, the floods have affected more than 33 million people in 85 districts while many districts of Sindh and Balochistan are still under water, causing rapid outbreak of epidemics across provinces. In addition, over 650,000 expectant women are in urgent need of medical assistance.

Response by Alkhidmat

A series of recent nation-wide public opinion polls, conducted by IPSOS and Gallup Pakistan, reveal that Pakistanis retain high levels of trust in Alkhidmat's emergency response efforts. We are recognized as one of the most-trusted civil-society organizations in Pakistan for humanitarian assistance.

Alkhidmat's enabling infrastructure of extensive on-ground volunteers, relief trucks, and rescue boats, has helped generate a swift response. Our priorities have been devised based on the various themes of humanitarian crises that have emerged as a consequence of the floods.

Rehabilitation of flood affectees

At present, Alkhidmat Foundation Pakistan is simultaneously doing relief and rehabilitation work in flood-hit areas across the country. Rehabilitation program worth PKR 5 billion has been started in Sindh, Balochistan, Khyber Pakhtunkhwa, and South Punjab. Under the Alkhidmat rehabilitation program, relief activities mentioned below will be carried out in flood-hit areas across Pakistan.

Houses Repair & Reconstruction

Alkhidmat is providing financial assistance to the affected families, helping them purchase building material, galvanized iron sheets, iron garters, blocks, bricks, etc. Alkhidmat has planned to provide financial assistance for the reconstruction of as many as 10,000 houses in flood-hit areas across the country.

Reconstruction & Repair of Schools and Masjids

Alkhidmat has also started the reconstruction, and repair of completely or partially damaged schools, Masjids and madrassas. An initial plan has been set up for the reconstruction of 200 schools and Masjids.

Farmers Support

Each farmer, owning land size of 1 to 5 acres, will be supplied with Agri inputs, seeds, fertilizers and pesticides worth PKR 100,000.

Orphans Support

Three thousand (3,000) orphans aged 5-10 in the flood-affected districts will be included in the Alkhidmat Orphan Care Program. Under the Alkhidmat Orphan Care Program, orphans will be provided health, food, and education until they reach puberty.

Clean Water Program

Various Clean Water Projects have been started in order to ensure clean drinking water supply to the populations in flood-affected areas. PKR 250 million has been allocated for these projects.
