عَنِ النَّعْمَانَ بْنِ بَشِيرٍ، قَالَ: قَالَ رَسُولُ اللَّهِ ﷺ

"مَثَلُ الْمُؤْمِنِينَ فِي تَوَادُّهِمْ، وَتَرَاحُمِهِمْ، وَتَعَاطُفِهِمْ مَثَلُ الْجَسَدِ إِذَا اشْتَكَى مِنْهُ عُضْوٌ تَدَاعَى لَهُ

سَائِرُ الْجَسَدِ بِالسَّهْرِ وَالْحُمَّى". (صحيح مسلم- حديث نمبر: 4813)

Numan Bin Bashir reported Allah's Messenger (ﷺ) as saying:

The similitude of believers in regard to mutual love, affection, fellow-feeling is that of one body; when any limb of it aches, the whole body aches, because of sleeplessness and fever.

# WHO WE ARE

- Alkhidmat Foundation Pakistan works as a non-profit, non-political and autonomous humanitarian organization to deal with real-life problems, emergency situations, and humanitarian assistance.
- We are a network of community leaders – made up of committed volunteers, donors, members of media and civil society, partners and staff – endeavouring together to make a difference in people and communities' lives.
- We seek to improve the lives of some of the world's poorest and most vulnerable people especially orphan and street children, widows and unemployed men and women through relief, development and community work.
- We try to reach out actively to emergencies and crises and help the nation in particular and the global community in general to rebuild their lives and livelihoods and reinforce their resilience to future disasters.
- We do our best to provide solutions to serious human problems such as poverty, hunger, unemployment, orphanage and widowhood through our sustainable development projects.

## OUR VISION

Service to humanity with integrity

## OUR MISSION

Alkhidmat Foundation Pakistan is a non-political, non-governmental, and non-profit organization, which committed to serving humanity especially vulnerable and orphans without any kind of discrimination to contribute to their well-being of health, education, financial sustainability, livelihood, shelter, availability of clean water, mosques, savage of disaster and other aspects of life and for the welfare of its employees by means of resource mobilization and developing a partnership with NGOs, other concerned public & private organizations, supporting, engaging in and during useful programs and doing all such acts, deeds, and things required to achieve above with integrity.

# MESSAGE OF THE PRESIDENT

This year has been like none other. We carried out a record-breaking relief activities ranging from disaster management, rehabilitation, healthcare, orphanage, education, clean water to several community services. We played a vital role in delivering our services, strengthening communities, and facilitating civic engagement.

We spent enormous funds on the welfare of people across the borders. The generosity of our donors, fundholders, and partners surpassed our expectations and gave us the opportunity to give more to those in need. As mission-driven organization, Alkhidmat Foundation holds particular accountability to lead by example in equity and inclusion. I believe we have succeeded in both.

The strength of our relationships with the government agencies, corporations, and other non-profits bolstered our work this year. So much so, that Alkhidmat Foundation was the talk of the town and our community's response towards our humanitarian projects was hilarious, the

**“I believe a faith-based foundation is a driving force behind impactful projects that make a bigger difference in the world called the non-profit sector.”**

International NGOs such as World Health Organization too, took a keen interest in learning about our unique methodology of reaching out to the needy of the neediest. This year, we conducted a review of our Strategic Plan document and found that much has been accomplished what was planned. This roadmap encompasses many key pillars: delivering faith-based humanitarian service; advancing human rights; fostering equity of opportunity, and building resilient communities.

While humanity at large is going through the worst crisis of the modern epoch, the responsibility of the leadership of value-based humanitarian organizations has multiplied manifold. We thank our donors, non-profit partners, and most importantly our volunteers who delivered what our community truly needed, and it crystallized how we will move forward.

While the pandemic is not yet behind us, our hopes are very high, especially our trust in Allah (SWT) acts as a driving force that keeps us inspired to think, plan and execute the policies-all to seek the pleasure of God. Though a new history is being written in the Thar and Cholistan deserts, challenges of rebuilding and rehabilitation in war-torn Afghanistan are calling the attention of welfare organizations to come up with a perfect solution.

May Allah (SWT) empower us to do something impactful for humanity!

# SHOWCASING THE FUTURE THROUGH EFFECTIVE PLANNING

Every non-profit organization needs goals and futuristic planning to operate effectively and with accountability. Since long-term goals are strategic in nature, they shape the direction of the organization and typically focus on a 5 to 10 year period.

Alkhidmat Foundation sets both short-term and long-term goals that are implemented effectively because of giving them a realistic timeline and converting them into deliverables. Our strategic plan is the formal process that we have created to accomplish the goals and objectives for the upcoming years. This guiding document is used to turn goals into actions. Alkhidmat's General Council is responsible for taking directional and executive decisions that identify high-priority goals, actions to achieve the goals and indicators to measure the success ratio.

As usual, this year too, the meeting of General Council for review and planning was conducted where all the members of the General Council actively took part in the planning process. The General Council calculated organizational long-term and short-term goals that in the light of the vision, shape the future of Alkhidmat as an organization.

# 2019-2021

## LAST 3 YEARS OF SERVING HUMANITY

### 2019

- Alkhidmat updates its all and sundry hospitals by incorporating new medical devices and technologies into the system.
- Large-scale interest-free business loans create an impact on a good number of unemployed men and women especially widows.
- Alkhidmat Women Wing and Alkhidmat Women Wing Trust work relentlessly in difficult conditions to provide relief to unemployed women, widows and young girls.
- Alkhidmat's Child Protection Centers set up for street children carry out their operation at 30 different places across the country.
- Alkhidmat's free wheel-chair program benefits good number of persons with disabilities.
- Alkhidmat Foundation volunteers immediately reach out to Mirpur Azad Kashmir to perform relief activities for the earthquake-stricken city and its adjacent areas.
- Over 1,152,149 patients benefit from our laboratories and collection centers.

### 2020

- During the COVID-19, Alkhidmat Foundation turns out to be the only organization whose millions of volunteers reach out to the needy from Karachi to Gilgit and from Gwadar to Chitral.
- The Government of Pakistan commends Alkhidmat's record relief work carried out during COVID-19 pandemic lockdown. The President of Pakistan confers Shaan-e-Pakistan Award to Alkhidmat Foundation.
- We provide healthcare facilities to over 7.2 Million beneficiaries.
- Our Disaster Management Program caters to the needs of 212,977 people.
- Under Orphan Care Program, we serve 12,225 orphans and their mothers.
- Alkhidmat Clean Water Program benefits 2,240,900 people on a regular basis.
- Our Education Program reaches out to 20,349 students.
- Over 1,182 men and women are granted interest-free loans through Alkhidmat Mawakhat Program.

### 2021

- Alkhidmat reaches out to Afghanistan in the wake of the recent regime change and carries out record relief work.
- In the wake of the recent aggression in Palestine, Alkhidmat in coordination with Turkish NGOs takes part in the rehabilitation process.
- To support energetic and hardworking individuals, Alkhidmat Foundation under its Mawakhat Program issues interest-free loans to boost up startups.
- Three new hospitals begin operating in Multan, Bajaur and Mohmand.
- The World Health Organization and Alkhidmat Foundation join hands together to undertake various project in the healthcare field.
- The Government of Punjab entrusts several damaged water filtration plants to Alkhidmat that begins working on their repair and refuncting.
- Under Alkhidmat Alfalah Scholarship Scheme, a huge number of students receive scholarships.

# DEALING WITH TOUGH CHALLENGES

Time and again, Alkhidmat Foundation conducted in-depth review of its projects in order to enhance the effectiveness and accountability in all of them – with better inclusion, monitoring and assessment of day-to-day operations.

The year 2021 is gone with lots of pleasant and unpleasant memories. The 2022 is putting forward even greater challenges for non-profit sector organizations such as Alkhidmat Foundation. The latest Global Humanitarian Overview have warned that a shocking 274 million people will badly require humanitarian aid and assistance in 2022. This is believed to be the highest figure in decades. Given these alarming indicators, the role and responsibility of action and faith-based humanitarian organizations has increased manifold. They need to mobilize more to avert the suffering of millions around the globe.

While almost 60% of people at global level have received at least one dose of the COVID-19 vaccine, those who are living in particularly fragile or vulnerable contexts, such as conflict zones, refugee camps, and disadvantaged areas, are likely to cope with serious threats of poverty, hunger, unemployment, inflation besides COVID-19 pandemic.

Alkhidmat Foundation since its inception, has been working for humanity. We are operating in seven key areas such as disaster management, orphanage, education, clean water, microfinance, healthcare, women empowerment and community services. We are one of Pakistan's most impactful children's charities in Pakistan running a number of schemes and projects. That's an evidence to the commitment and compassion of Alkhidmat's visionary leadership, partner agencies, our financial supporters, our volunteers, and our staff. It hasn't always been an easier task. We've mobilized more and more volunteers, human resources and asked more from our supporters than ever. During the pandemic activities, we also lost some precious lives.

# DISASTER MANAGEMENT

Geographically, Pakistan is located in a region where climatic extremes and geophysical conditions make it a disaster-prone country. Different natural hazards affect different parts of the country. A significant portion of Sindh is also vulnerable to drought and heatwaves. Every year, people die from the heat in the Thar Desert, but in 2015, the effect of rising temperatures extended to the coastal metropolitan city of Karachi, killing many people.

Alkhidmat Foundation, being one of the most active humanitarian organizations has established a self-sufficient emergency response mechanism. While continuously remaining in the disaster management field, we have mastered up many techniques that involve multiple processes of active coordination and collaboration, operational practices, strategies, and skills.

**BENEFICIARIES**

**EXPENDITURE**  
**1,172 Million PKR**

## STRUGGLE AGAINST DENGUE CONTINUES

Dengue has progressed as a worldwide life-threatening public health concern. In recent times, loads of dengue cases have been reported in Pakistan. The dengue has gone spreading from Karachi to Lahore and from Lahore to different parts of the Punjab province and then to moderately temperate zones of Khyber Pakhtunkhwa where climate change, along with a runaway population, urbanization and increase in travel and transportation, is stoking it further.

Alkhidmat Foundation besides raising awareness about dengue has been taking practical steps. Our volunteers went door to door and carried out spray at public places such as schools, railway and bus stations, public parks, minority worship places, hospitals and in other places in Karachi and Lahore.

## SAVING LIVES AMID TERRIBLE EARTHQUAKE IN HARNAI

A terrible earthquake jolted the vast areas of Harnai, Sibi, and Quetta causing loss of many precious lives and damaging the infrastructure. Harnai was the most affected area where Alkhidmat rescuers had to face difficulties in reaching owing to broken roads, poor mobile phone coverage and lack of electricity.

Considering the poor community and marginalized area, Alkhidmat Foundation promptly responded to this emergency to cater to the basic needs of the affected local residents by providing them with shelter, medical assistance, food, and water. Alkhidmat volunteers shifted the injured to a local hospital. Since majority of homes in the Harnai area are made of mud and stone they went through irreparable damage forcing people become homeless.

## GETTING READY FOR MONSOON CHALLENGES

In the wake of the current monsoon rains and the subsequent damage taking place in Karachi, Alkhidmat Foundation Pakistan Karachi chapter provided rescue and relief supplies to 12 relief emergency centers across the city to deal with any emergency likely to occur during monsoon rains.

Chief Executive Alkhidmat Karachi, Naveed Ali Baig handed over these supplies in a ceremony. The equipment included oxygen cylinders, long shoes, spray boxes, jackets, bags, boats, safety equipment and suction pumps. Volunteers in Karachi remain vigilant round the clock to deal with any emergency in collaboration with the relevant government agencies.

# HEALTH SERVICES

Pakistan's healthcare system is coping with serious problems such as lack of health facilities in rural areas, unemployment of doctors, shortage of trained medical personnel, outdated medical apparatus, insufficient number of hospitals, and unavailability of treatments for many diseases, etc. Unfortunately, Pakistan has an alarming maternal and infant mortality rate in the South Asian region.

Alkhidmat Foundation, keeping these facts in view, has been endeavouring to do its part of the job. With a countrywide network of hospitals, ambulances, pharmacy shops, medical laboratories, dispensaries, free medical camps, and medical units, we are offering speedy but quality treatment. From our state-of-the-art diagnostic centers and labs, people can avail the facility of all types of tests at subsidized rates.

## DR. PALITHA GUNARATHNA MAHIPALA

WHO Representative in Pakistan

In a country like Pakistan, it is very important for an organization to provide services to the rural and remote areas. Alkhidmat's model of humanitarian work is unique in nature that other counterparts should follow as it offers a great deal of learning. Pakistan currently has a number of health sector issues that need to be addressed. I am very delighted to learn that Alkhidmat is running a network of hospitals, ambulances, dispensaries, mobile units and blood banks across Pakistan where the best facilities are being provided to the people.

I also must appreciate Alkhidmat Foundation for running free medical and free eye camps throughout the year that are benefitting children, elderly and women without any discrimination.

I look forward that WHO and Alkhidmat would team up to carry out health-related projects in Pakistan in coming days.

## WHO AND ALKHIDMAT JOIN HANDS TOGETHER

The World Health Organization and Alkhidmat Foundation have agreed on undertaking joint ventures into the healthcare projects in Pakistan. Vision impairment and blindness are key elements of the overall health status of people in Pakistan. Estimates say that millions of people are living with some sort of visual impairment and blindness. World Health Organisation (WHO) reports that preventable blindness is likely to surge over the coming years.

Alkhidmat Foundation since long is playing its part in tackling this serious issue. Free eye camps are organized across the country to cure eye diseases of people. Last year, the world's biggest humanitarian organization i.e. World Health Organization joined Alkhidmat's hands to organize a 6-day free eye screening camp for children in Lahore. Dr. Palitha Gunarathna Mahipala, WHO Representative in Pakistan was also present on the occasion who supervised the camp and appreciated Alkhidmat's endeavours.

An eye specialist screening the eyes of a boy in a school held in collaboration with POB Trust

People sitting together after getting their eyes screened in a free eye camp held in Chitral

## TOWARDS REHABILITATION OF PUBLIC HEALTH

In continuation with the efforts for social uplift and welfare of the people of rural and urban areas, Alkhidmat Foundation, time and again arranges free medical camps across the country. The camps are set up with a sacred aim of improving health awareness among different work segments of Pakistani society, about various diseases and viral infections.

Patients are checked and given free medicines and medical advice. Experienced doctors and paramedical staff are deputed in Alkhidmat camps who provide medical treatment in general healthcare. Besides medical facility, the objective is to educate the patients on personal health, hygiene, childcare, preventions of diseases and sanitation of living areas.

## SURGERY FOR LIFE...A MISSION OF CLEFT LIP AND PALATE RECOVERY FOR CHILDREN IN THARPARKAR & MULTAN

In Pakistan, every among 500 births, one child is born with cleft lip and palate every year. Owing to poor economic conditions and lack of awareness, majority of children often do not receive the treatment at all and thus keep growing up with these defects.

Alkhidmat Foundation has been dealing with this issue through its chain of hospitals and medical units. In Alkhidmat Hospital Tharparkar and Multan, free surgeries of cleft lip and palate are carried out successfully. Moreover, local population is provided awareness on these issues and encouraged to seek the treatment for their children who because of negligence are not taken to hospitals for proper treatment. Alkhidmat Foundation's mission is to provide every child born with curable disease the equal opportunities to get treated and start living a normal life just like other human beings do.

A little angel before and after lip palate surgery at Alkhidmat Charity Hospital, Multan.

## ON THE ROAD TO NEW MEDICAL SERVICE... HOSPITALS THAT BECAME OPERATIONAL THIS YEAR

Alhamdulillah, with the untiring support of donors and donor organizations, this year Alkidmat Foundation succeeded in inaugurating three major hospitals respectively in Multan, Mohammad Agency and Bajaur. Of these Alkidmat Charity Australia Hospital Multan spans over an area of 40 kanals in total and it is a 300-bed hospital consisting of two blocks. This hospital will cater to the needs of patients from Multan and adjacent regions.

Alkidmat Mohammad Hospital is located at Ghazi Baig , Mohmand, Khyber Pakhtunkhwa and occupies an area of 18 Marla's 4,896 square feet. Currently, the hospital is providing in and out-patient services, gynae & obstetrics department, laboratory, ultrasound and ambulance facilities.

The 3rd hospital is Alkidamt Hospital Bajaur, which is located at Anayat Kalay Khaar, Bajaur, Khyber Pakhtunkhwa. It has total covered area of 5,008.78 square feet and is providing in and out-patient services, gynae & obstetrics, pharmacy, laboratory, operation theatre, ultrasound and ambulance facilities.

# BRINGING LIFE BACK TO THE DESERT

## ALKHIDMAT NAIMATULLAH KHAN THAR HOSPITAL

The Thar district has been the most neglected and deprived area in the province of Sindh. Extreme poverty, hunger, famine, constant drought, lack of medical facilities and illiteracy have made life difficult for the local inhabitants.

Alkhidmat Foundation has deeper roots in the people of Thar. With its pioneering humanitarian work that includes the provision of clean drinking water through hand pumping and digging wells, provision of basic amenities, healthcare, schooling for children, and food and nutrition programs, we are improving the quality of life in the region. To meet our vision for a progressive and prosperous Thar, we have established Thar Complex, a 275-million-rupee purpose-built building consisting of a 50-bed Alkhidmat Naimatullah Khan hospital in District Mitthi. Powered by solar energy, the Complex is offering all the basic health facilities to the local residents. We are also planning to further extend the future by incorporating in it a veterinary hospital, Aghosh Home, Diagnostic Center, Schools, Water schemes, Child Development Center, Ambulance Service and Residential Blocks.

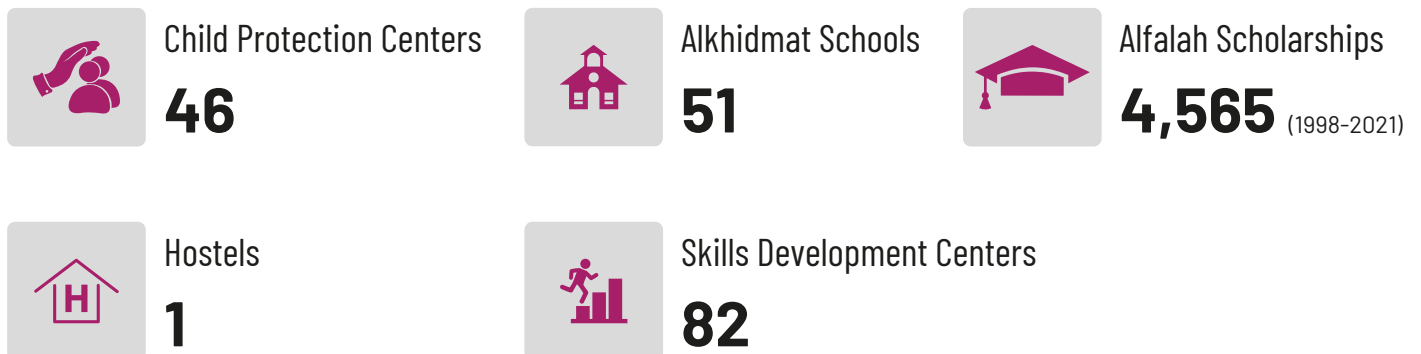

# EDUCATION PROGRAM

Undeniably, the role of education in transforming the lives of people is crucially important. Our current literacy rate is 56 percent which means that half of our country is illiterate. An estimated 22 million children majority of them girls are not going to school.

Alkhidmat Foundation believes that every child deserves to be better educated, nourished, and groomed. Alkhidmat Foundation in accordance with its resources is contributing to the future of young students. With our Alfalah Scholarship Program, we are catering to the needs of brilliant but needy students at school, college, and university levels. Moreover, our Child Protection Centers, Skills Development Centers in collaboration with Child Protection and Rehabilitation Trust (CPRT) are preparing out-of-school children to take interest in their studies and get back to school.

**BENEFICIARIES**

**56,801**

**EXPENDITURE**

**125 Million PKR**

# CHILD PROTECTION CENTERS

Many children in Pakistan work as waste pickers because it is the only way to earn a livelihood. Impoverished families depend on the child's earnings and residence in slums further deprives them of basic amenities such as access to health, education, safe drinking water, shelter and food. Child waste pickers walk around barefoot, hanging jute or plastic bag without any gloves to carry the garbage from early morning to midnight.

Alkhidmat Foundation has established Child Protection Centers across the country to provide the basic education and training to street children who earn their living by picking up garbage from the streets at school age. There are currently 60 Child Protection Centers across the country for the children living in Jhugies where a total of 15,000 children are studying.

Children studying under a tree outside Chowndra School in District Tharparkar

## ALKHIDMAT ALFALAH SCHOLARSHIP PROGRAM

The cost of higher studies in Pakistan is exorbitant. Most likely it is out of reach of the students from marginalized backgrounds. A large number of male and female students are not able to opt for higher studies. Resultantly, in spite of top grades, a number of youngsters are deprived of higher studies.

Alkhidmat Alfalah Scholarship Program is enabling disadvantaged students to get access to higher studies absolutely free of cost. This mission originated from Kharyaan in 1998 by a few knowledge-loving and philanthropic-minded individuals who wanted to make a difference in young people's lives. Today, because of Alkhidmat Alfalah Scholarship Program, many young aspirants have found the interpretation of their dreams and they after completion of their studies, are now serving in various governmental, as well as private-sector organizations and institutions.

# CLEAN WATER

There is no concept of life without water. In Pakistan, every year, around 53,000 children under five die from diarrhoea, which is a water-borne disease. Moreover, 60 million people are said to be at risk of getting arsenic poisoning. Clean drinking water has become a greater challenge for the people since only 30 percent of the population has access to drinkable water. The rest 70 percent depends on bacterially contaminated water, which is nothing more than poison.

Alkhidmat Foundation, keeping these vulnerable facts in view is working on the provision of clean drinking water to the local communities. With Alkhidmat Clean Water Project, we are committed to providing clean drinking water through a number of initiatives like installing water filtration plants in big cities, setting up hand pumps to water wells in the far-off areas of Thar Desert, Cholistan, and hilly areas of Balochistan and KPK.

**BENEFICIARIES**  
**3,191,150**

**EXPENDITURE**  
**310 Million PKR**

## AGRO FARMING... A REVOLUTIONARY TECHNOLOGY FOR AGRICULTURE IN THE DESERT

Thar is the largest desert zone in the province of Sindh. People of this region depend on rainfall and fetch their daily water from wells and store it in tanks. When it comes to growing crops, people have to wait for a downpour, which takes a long time. In summer, many wells run dry and the ground-water becomes brackish. So not to talk of irrigation, drinking water becomes a serious problem for the inhabitants of the Thar Desert.

Alkhidmat Foundation is running several water schemes in the Thar Desert that besides providing clean water for households is enabling farmers to opt for agro farming technology to grow crops, orchards and vegetables such as onions, okra, bitter melon, and watermelons, chillies. Today, farmers are using 70 per cent less water through the solar submersible system and cultivating crops successfully.

## CLEANING WATER FOR DAILY CONSUMPTION

Amid the rising population and climate change, the availability of clean drinking water is becoming a troubling issue in the South Asian region, particularly in Pakistan, which according to research may face absolute water scarcity by 2040. Clean water in metropolitan cities in Pakistan is just like a dream. Moreover, waterborne diseases are very common hinting at a dangerous future.

Alkhidmat Foundation Pakistan and Punjab Aab-e-Pak Authority in order to improve local communities access to safe drinking water and combat waterborne diseases have jointly undertaken the project of installing water filtration plants in different cities of the Punjab province. The scheme increases the efficiency to achieve the desired impacts on human development and health. Currently, 20 water filtration plants are functioning in Lahore in collaboration with Punjab Aab-e-Pak Authority.

## A TURKISH GIFT OF WATER FILTRATION PLANTS

Water is the most crucial compound for life on Earth, and having drinkable water is a key worldwide concern for the twenty-first century. All living things require clean, uncontaminated water as a basic requirement. In Pakistan, clean water is becoming a challenge for household usage.

Alkhidmat Foundation in collaboration with the Turkish International Cooperation and Development Agency (TIKA), which is Turkey's state aid agency has set up many water filtration facilities in Punjab to provide clean drinking water to the local population. Thousands of people and families are benefitting from this scheme on a regular basis.

## ENABLING WATER THROUGH SOLAR TECHNOLOGY IN DI KHAN

The region of Dera Ismail Khan is semi-arid which has an average annual rainfall of about 9 inches and this is not adequate for high-intensity cropping. Moreover, remote locations in DI Khan often do not have access to clean, running water.

Alkhidmat Foundation is working on the provision of water through solar submersible water pumps, which are installed underground but solar panels are connected above ground. Alkhidmat has installed 8 solar panel plates in DI Khan, which is supplying water to the areas that are typically beyond the reach of power lines. Hundreds of local families benefit from this project regularly.

## BALUCHISTAN... ON THE BRINK OF WATER CRISIS

Only half a century ago, Balochistan, a mineral rich province had flowing streams, karez and underground wells which provided adequate water to the people. But, today, lack of rain and over exploitation has dried up everything. Women in the Balochistan province have to walk miles each day to fetch a single container of water to meet their families' needs.

Alkhidmat Foundation in Balochistan province is working on the provision of water for household, drinking and for irrigation on a small scale. From digging up water wells to installing solar submersible water pumps to hand pumps, Alkhidmat is utilizing lots of resources to enable people's access to water.

A man helping village children to get water from hand pump in Balochistan

## WATER WELLS PROJECTS IN GILGIT-BALTISTAN

Water supplies in Pakistan's Gilgit-Baltistan province are heavily contaminated due to lack of sewage and waste treatment plants. Environmental and health problems frequently arise from water-borne infections. The use of ground water is uncommon, except for a few riverside villages in Skardu, for instance, where people draw water from shallow wells.

Alkhidmat Foundation besides running water filtration plants in Gilgit-Baltistan has dug up several community water wells to enable local population's access to water for household and drinking. These water wells are working in Hanzel Payen, Bargo Payen, Sharote and Ghizar. Thousands of families are benefiting from the wells on a regular basis.

# ORPHAN CARE PROGRAM

Orphans are the most neglected class of our society. And one can imagine the pain and mental distress of these children who due to unfavourable circumstances are left either at the mercy of the state or humanitarian organizations. Poverty, illiteracy, hunger, diseases, and the unavailability of social protection are some of the things that are always hovering over orphan children.

Alkhidmat Foundation takes pride in its comprehensive Orphan Care Program that consists of Aghosh Homes in which state-of-the-art residential, recreational and education facilities are being provided to the registered orphan children. Moreover, through Orphan Family Support Program (OFSP), we bring the donor into direct contact with the orphan boy and girl who live in their own homes along with other family members. Clusters have been arranged to carry forward this program.

**1,347 Million PKR**

## ENSURING QUALITY MEDICAL ATTENTION FOR ORPHAN CHILDREN AND THEIR MOTHERS

To ensure healthy growth of orphan children and their mothers, Alkhidmat Foundation Pakistan conducts regular health screening camps. Our regional and local offices organize these camps in which professional child specialists and experienced doctors conduct medical examination of the children and their mothers. Various lab tests, x-rays, CT Scan, MRI and other medical exams are conducted as per the need assessments.

This year health screening camps were held in Karachi, Lahore, Sargodha, and other parts of the country. Children and their mothers greatly benefitted from the healthcare facilities including the provision of free medicines.

## CHILD MOTHER CHARACTER DEVELOPMENT AN INTEGRAL PART OF HUMAN SUPREMACY

This program aims at character development among children and their mothers through an interplay of family, school, and community influences by considering children's individual nature, temperament, experiences and choices in view.

These activities impart qualities of integrity, compassion, honesty, trustworthiness, patriotism, faith, respect, responsibility, citizenship, and caring for others. Mothers are empowered through several initiatives like integrating them into business at small scales and certain income-generating schemes.

## ANNUAL TALENT AWARDS

Alkhidmat Foundation organizes annual prize distribution ceremony and talent award show as a token to encouragement and appreciation to the brilliant students who showcased remarkable performance throughout their academic careers.

The honourable Ameer of Jamaat-e-Islami Pakistan, Siraj-ul-haq was the chief guest to this year's event who highly appreciated the students for making a difference. Addressing the event, he said that Pakistan needs such an intelligent and hardworking youth manpower who would truly take the country forward and play their key role in its construction and development.

## FAKHAR ZAMAN

Pakistani Cricketer

I feel privileged and honored to be here with orphan children. This is a great and an amazing step that Alkhidmat Foundation has taken to uplift these innocent children by providing them with quality schooling, shelter, food, happiness and bright future.

The truth is that most of us just keep thinking about doing something like this, but Alkhidmat has actually proved it by its result-oriented actions. I pray that this noble work continues. You will always find me with you as your brand ambassador. I hope that these orphans who are sitting here today when grow up will serve the nation in many fields, not just in sports.

May God bless you!

# AGHOSH HOMES

Aghosh, denotatively means "shadow" and connotatively means "a mother's act of carrying her child" whether she is sitting or standing. It symbolizes motherhood. Based on this vision, Alkhidmat Foundation Pakistan has built Aghosh Homes across the country to give home-like environment to the registered orphan children. We are providing nutritious food, clothes, accommodation, education, healthcare, and happiness to these most marginalized children.

Aghosh fosters healthy social relations and a sense of community at the same time accommodating every child's unique needs- a place that they're proud to call their home and prepares them for their bright future path in life in the best possible way. The physical surroundings of Aghosh Homes reflect a practice-oriented pedagogic approach so that children feel at home, safe and sound, privileged, and live and grow up both physically and intellectually.

## A CENTER OF EXCELLENCE FOR ORPHANS

Alkhidmat Foundation besides setting up Aghosh Homes across the country, has established a state-of-the-art Aghosh Homes in Murree. This Centre of Excellence is located at a distance of 35 km from Islamabad on the Murree Expressway. Aghosh College Murree is helping these children build a bright future through quality education and holistic care. The college hostel is fully operational where children are currently engaged in pursuing modern education.

The master plan of this project includes Academic Block, Residential Blocks for students, Masjid, Playground, Medical Center, Staff Accommodation and infrastructure for other necessary services. The state-of-the-art Academic Block has been completed this year and is now operational. It provides specialized space for classrooms, lecture halls, laboratories, IT lab, library, multipurpose halls, offices and other relevant services for 250 students.

# MAWAKHAT PROGRAM

Pakistan has the 9th largest labour force in the world which is increasing every passing of a day. The number of unemployed people especially university graduates is three-times higher compared to the overall number of jobless people. Unemployment is a major hurdle in the way of economic growth.

Alkhidmat Foundation through its Mawakhat or Microfinance program is supporting hundreds of unemployed men and women to do their own businesses and cease dependency on others. This project aims at enabling families to accede to economic opportunities, to earn a respectful living, and gain relevant entrepreneurial skills that are necessary in the 21st-century business world. In this context, interest-free loans upto Rs. 75,000 along with the required training and skills are provided to the hardworking people to launch their startups.

# COMMUNITY SERVICES

More than 50 million people in Pakistan are living below the poverty line. Unemployment, hunger, and food insecurity are on the rise causing many problems among the people, especially among the underprivileged.

Alkhidmat Foundation having its deeper roots in the local population has taken a number of initiatives to reduce poverty, to provide income security to underprivileged families, and to increase their access to social protection. Alkhidmat Community Program aims at alleviating poverty, vulnerability, malnutrition, and deprivation in the community so that social empowerment finds its way. We are helping the community through equal distribution of food, water, wheelchairs, Eid gifts, Diwali and Christmas gifts, winter packages, Qurbani meat packs, Ramadan packages, and other necessities of life. The community program also comprises the construction of masjids and rehabilitation community welfare centers.

## SPREADING OUT JOYS OF EID QURBAN

Qurbani means sacrifice. Every year during the Islamic month of Dhul Hijjah, Muslims across the globe purchase sacrificial animals like sheep, cow, camel or goat and slaughter them- to honour the Sunnah of the Prophet Ibrahim (AS) who showed willingness to sacrifice his son Ismail (AS), for the sake of Almighty God.

Alkhidmat Foundation has been carrying out Qurbani projects since its inception. In 2021, around 878,000 Qurbanis were performed, benefitting millions of people. Alkhidmat purchases sacrificial animals from the local market and performs Qurbani in state-of-the-art, modern slaughter houses by complying with hygienic SOPs. Each meat pack contains on average of three kilograms of meat, which will provide a family of four with meals for about a week.

## FIGHTING AGAINST THE SHIVERING WINTER

In Pakistan, the lack of financial resources and extreme poverty makes 30% of children extremely vulnerable during winters. At average, there are 3 children in each family and majority gets seriously ill due to extreme cold in winters and without having excess to warm clothing. Many people cannot afford warm clothes and other necessary goods to deal with the cold weather. In this regard, welfare organizations become a ray of hope for those shivering in the cold.

Every year when the winter season arrives, Alkhidmat Foundation Pakistan launches its winter drive aiming to protecting the needy and deserving people and families from the harshness of weather. Our Winter Package that consists of warm clothes and blankets reaches the needy people across the country. This year we succeeded to reach out to more than 27 thousand families and distributed the winter package.

## SHARING IS CARING... CELEBRATING CHRISTMAS & DIWALI

Pakistan is an immensely plural country characterized by religious and ethno-linguistic diversities. It is an overwhelmingly Muslim community, yet there is good number of minorities who enjoy equal citizen rights.

Alkhidmat Foundation Pakistan is serving every segment of society irrespective of any discrimination of caste, colour or religion. This is the reason that along with the Islamic festivals, Alkhidmat Foundation arranges the gift and ration distribution ceremonies for the deserving families belonging to the minorities on the occasion of Christmas and Diwali to include them in the happiness. Alkhidmat Foundation distributes food, dry rations, clothes and wheelchairs to deserving members of the Hindu community on the occasion of Diwali. The similar activity is carried out on the occasion of Christmas.

# ALKHIDMAT WOMEN WING

Alkhidmat Women Wing is doing a great job for women by taking interest in their problems such as financial deprivations, physical torture, mental health problems, poverty, hunger, unemployment and illiteracy. Alkhidmat Women Wing is enabling Pakistani women to be financially self-sufficient, well-educated, well-trained and well-informed on social, political and economic issues.

Alkhidmat Women Wing advances a number of welfare projects for women and girls through advocacy, education, community centers, philanthropy, microfinance, strong family, community service, health, clean water, marriage assistance and others. That is the mission of AKFP Women Wing that it empowers Pakistani women and girls by accelerating their advancement to drive individual and family growth and impact. They are helping women especially from marginalized backgrounds to uplift their morale by leveraging their full talent and potential.

# MS. KALSOOM FATIMA RANJHA

President, Alkhidmat Foundation Women Wing

Alkhidmat Foundation Women Wing is playing a critical role in uplifting women from marginalized backgrounds. While women make around 50% of Pakistan's population, the unemployment rate among them both in rural and urban settings is higher compared to men. This can cause a succession of injustice, which ultimately leads to vulnerability, dependency, and consequent violence and intimidation.

We are thoroughly working to tackle these issues and impacting the lives of underprivileged women. We are supporting women to be socially, psychologically, domestically and financially stronger and informed to make a difference in their lives and contribute incredibly to socio-economic arena.

## FOR BRAVE WOMEN... ONLY SKY IS THE LIMIT

Empowering women is essential to socio-economic development and sustainable future. It is good for women's healthy and prosperous life. When women are living safe, fulfilled and productive lives, they reach their full potential and find themselves in a position where they can utilize their skills and talents for the betterment of society and humanity at large. Mentally fit and healthy women can play a crucial role in social development of families, communities and countries.

Alkhidmat Virtual Conference for Women promoted, communicated and amplified the influence of women at home, in the workplace and beyond. In this conference very informative and interesting sessions were held aimed at promoting women's sense of self-worth, their ability to determine their own choices, and their right to influence social change for themselves and others. There is no doubt that girls and women continue facing significant challenges in Pakistan that range from family matters to work places and they are typically underrepresented in power and decision-making roles.

## CONSCIOUS WOMAN, STRONG FAMILY

To awaken the consciousness of people and to awaken them from negligence, it is necessary to awaken the woman of the society. Once a woman comes into action, the whole society gets waked up. Today, there is an urgent need for women to use their acquired rights and freedoms for the benefit of society.

Alkhidmat Foundation is striving for the dignity of women and for the stability of the family and for this purpose several initiatives have been taken. From training workshops to women conferences and seminars, Alkhidmat is encouraging Pakistani women to be conscious, well-educated and well-aware of the existing challenges and play their role as sister, daughter, mother and spouse. We are struggling for the restoration of the true status of women in society. We educate women on their social, political, economic, legal, medical, and educational rights and how to get protection. Moreover, women are trained how to enjoy property and inheritance rights and avoid un-Islamic customs and practices that affect women's status and rights.

# ALKHIDMAT FOUNDATION WOMEN WING TRUST

Enrolled as Alkhidmat Khawateen Trust Pakistan, Alkhidmat Women Wing Trust has been carrying out its operations since long. The Trust covers all the major areas Disaster Management, Clean Water, Mawakhat, Orphan Care Program, Education, Community Service and others. It has spent years putting women's welfare at the forefront of their mission. People attached with Alkhidmat Women Wing Trust are positively impacting the lives of Pakistani women and girls and eradicating their deprivation and backwardness.

Initiatives such as women empowerment, women entrepreneurship, women literacy, and women welfare are the focus of Alkhidmat Women Wing Trust activities. They also organize business training workshops for underprivileged women enable their access to microloans to help facilitate their professional growth. Alkhidmat Women Wing Trust is supporting thousands of needy families on monthly basis through its monthly sponsorship program under which dry ration bags with one month of food supplies, free healthcare and education facilities are provided to women especially widows.

# MS. NAVIDA ANIS

President, Alkhidmat Foundation Women Wing Trust

Alkhidmat Foundation Women Wing Trust, which is enrolled as Al Khidmat Khawateen Trust Pakistan is working for the welfare of Pakistani women since decades. We are operating in several key areas such as disaster management, healthcare, education, orphan care, microfinance, clean water, and community service. We are inspiring women to be well-educated, conscious and be solution of their own problems. Our focus is women from marginalized backgrounds and we are uplifting these women to come out of poverty, vulnerability, illiteracy, and deprivation.

We are strengthening their morale, restoring their Islamic identity and empowering them and their families to be financially and morally stronger. We are also providing educational and entrepreneurship opportunities to women and girls and enabling their access to basic necessities of life.

**YOUR SUPPORT ACROSS THE GLOBE**

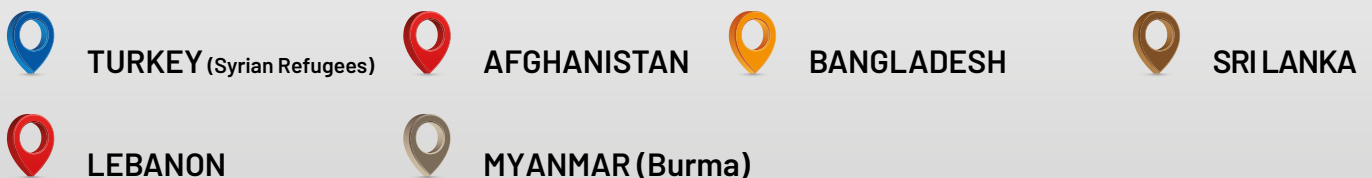

# MAP OF ALKHIDMAT FOUNDATION WORLDWIDE

Alkhidmat Foundation family consists of affiliated global organizations all around the world

In 2020-2021, Alkhidmat Foundation Pakistan in collaboration with the partner organizations backed up several humanitarian projects both overseas and in Pakistan. Globally, we supported activities in Afghanistan, Myanmar (Burma), Sri Lanka, Bangladesh, Lebanon & Turkey (Syrian Refugees) and other countries to play our part in alleviating poverty, hunger, thirsting, deprivation, diseases and provided vibrant humanitarian assistance to people and communities in need.

## COUNTRIES WHERE WE REACHED

# REBUILDING AFGHANISTAN

Afghanistan is one of the most backward countries in the world. Over the past years, the situation has turned out to be even more miserable as paralyzing poverty, hunger, unrest, drought, and COVID-19 have collided to cause a humanitarian emergency. Unparalleled food crisis, poor access to water, healthcare & sanitation services have left more than half of the population in the dire need of relief.

Alkhidmat Foundation is on the ground in Afghanistan delivering assistance to the most vulnerable Afghan brothers and sisters. Alkhidmat is now scaling up its lifesaving food and health programmes for children, women and displaced families through the delivery of dry ration, clothes, safe water and medicines via Torkham Border. Moreover, Alkhidmat in collaboration with its potential donors such as University of Lahore and Pakistan Child Heart Foundation is working on the free treatment of Afghan children having heart diseases.

Alkhidmat Foundation Pakistan sends another tranche of humanitarian aid to Afghanistan.

Relief goods items lying in Alkhidmat Head Office prior to their loading and dispatching to Afghanistan

Ramadan food package distribution among Afghans

# PALESTINE RELIEF WORK

Unfortunately, Palestine, the first Qibla of Islam once again bled as air strikes continued killing several innocent people including children. Thousands of families became homeless without any resources and they were forced to live in temporary shelter camps. Destruction was seen everywhere from Gaza Strip to the West Bank.

Alkhidmat Foundation Pakistan in coordination with the Turkish Red Crescent and Hayrat Foundation entered the Land of the Prophets and took part in the rehabilitation work. Injured were treated at homes and in camps. ENT related treatment of the injured children was also carried out. Moreover, while teaming up with the Turkish organization Doctors Worldwide, Alkhidmat provided door-to-door medical care to the Palestinian brothers and sisters. Ration packages and cooked food, water, and other essentials of life were also provided on a regular basis. Qurbani meat was also sent to Gaza.

Alkhidmat Foundation in collaboration with its global partner organizations continues relief work in Palestine

Medical supplies stored in a place at Gaza to be utilized for the treatment of the injured Palestinian

Volunteers packing ration prior to the distribution among the homeless Palestinians

# REACHING OUT TO **ROHINGYA**

The Rohingya are a stateless Muslim minority who are living in Myanmar's Rakhine State, which does not recognize them as its citizens. When the Myanmar's military led a violent crackdown on the Rohingya refugees they were forced to flee to other countries. Now, most of them live in Bangladesh, nearby Cox's Bazar, which is the largest refugee camp in the world.

Alkhidmat Foundation has been working on the provision of much-needed relief to Rohingya Muslims by ensuring food, water, medicines, dry ration and other necessities of life. On the eve of Eid-ul-Adha, cows were slaughtered and the meat was distributed among the refugees. Similarly, in the Holy month of Ramadan, rations were delivered to ease their Fasting. Last year, when a terrible fire took place in the Cox's Bazar camp, Alkhidmat Foundation mobilized relief in response to it.

Winter package comprising of warm clothes, gloves, caps, and blankets for the Rohingya refugees

Children and elderly receiving cooked food in Rohingya camp

# RESPONDING TO SYRIAN CRISIS

In the modern-day, the Syrian Refugees crises are the biggest humanitarian crises in the world that repeatedly are calling for prompt attention to be paid. The whole Syrian civilisation is burning the burnt of our negligence. The civil war in Syria and the dangerous consequences it has brought over the years is redefining the fate of humanity in this region.

Alkhidmat Foundation Pakistan in collaboration with its Turkish counterpart Hayrat Aid is carrying out relief activities for Syrian refugees who are temporarily settled in camps in Turkey. Alkhidmat from building Aghosh Home for Syrian children to delivering food, Ramadan ration, Qurbani meat, clothes, dry ration, medicines and other necessary things, is actively playing its part in alleviating the deprivation of Syrian refugees. During the freezing cold, our volunteers reached out to distribute warm clothes, blankets, jackets, gloves, face masks and bedding stuff.

# Alkhidmat Youth Gathering 6.0

Alkhidmat Foundation Pakistan has been engaging the youth through purposeful and learning-based volunteerism, a multi-pronged strategy that aims at creating a facilitating environment for youth to emerge as agents of positive change and development. Through the organization of the Annual Youth Gathering, Alkhidmat seeks to work with the educational institutions, media and corporate sector to provide equal opportunities for the youth so that they are able to participate in Pakistan's social, political and economic development.

Held every years since 2016, the Alkhidmat Youth Gathering provides thousands of youth and adults the opportunity to come together as one community of Pakistan and learn from one another's experiences, knowledge and drive inspiration. This year more than 1,500 youth delegations participated in the event.

# DR. MUHAMMAD MUSHTAQ MANGAT

Vice President AKFP

## VOLUNTEERISM IS A FORM OF WORSHIP

Volunteers are very interesting people who have passion to serve humanity without asking for any favour in return. They do not necessarily have extra time, yet the passion that drives them to be attentively involved in humanitarian work inspires and impacts millions of lives around the world.

In Pakistan, the number of volunteers associating themselves with humanitarian organizations is increasing every year and this includes both male and female activists who come from various backgrounds. As a matter of fact, volunteerism is a form of worship and people associated with it reflect compassion, selfless caring, patience, and sentiment of living for others.

Alkhidmat Foundation has the privilege that it is the only humanitarian organization in Pakistan that has on its credit the wider network of volunteers comprising of millions of volunteers.

# NAIMATULLAH KHAN

## LIFETIME ACHIEVEMENT AWARD

Naimatullah Khan Advocate was a renowned politician, statesman, philanthropist, social reformer and humanitarian whose contributions to addressing the woes of suffering humanity will be remembered in the history of Pakistan. In the continuation of his legacy and to pay tribute to his untiring services to humanity, Alkhidmat Foundation Pakistan every year confers Naimatullah Khan Lifetime Achievement Award upon the impact-making individuals working in various fields of life.

This year, two prominent figures were nominated for Naimatullah Khan Lifetime Achievement Award. These icons have left indelible mark on the history of humanitarian work. Of these, the first personality is Dr Abdul Bari Khan, a renowned cardiac surgeon and philanthropist and the founder and CEO of Indus Hospital and the second one is Dr Ilyas Syed, CEO of Paraplegic Center, Hayatabad Peshawar. These personalities hold an impressive profile encompassed with the unremitting struggle carried out for changing lives of people in the medical field. We congratulate them for showing humanity in every endeavour of their lives.

Born in Karachi in a Pashtun family, Dr Abdul Bari Khan is a doctor, surgeon and a philanthropist who has been partaking in community service since his youth by being involved in healthcare projects since his college days. Apart from professional career, he has been a social activist devoted to promoting healthcare facilities and services across Pakistan. He started the Indus in Karachi in 2007, which is 150-bed tertiary care facility providing absolutely free specialized surgical and medical care. The Indus Hospital Network has its branches in Lahore, Multan, Muzaffargarh, Rahimyar Khan, Badin, and Quetta.

Dr. Ilyas Syed is the CEO of Paraplegic Center Hayatabad Peshawar, which is a unique facility providing absolutely free of cost, medical, physical, occupational, recreational, vocational and psychosocial rehabilitation services to people with spinal cord injuries from Kabul to Karachi. Dr Ilyas is striving for the rights and issues of people with spinal cord injuries in particular and other PWDs in general, living in KP and the rest of the country. He is very kindhearted, down to earth and an inspiring personality who believes in giving back to the society and service of humanity with integrity.

# ALKHIDMAT ENDOWMENT (وقف) FUND

Your Donation Will Remain Forever

## What is Endowment Fund?

This represents contribution received from the donors with the stipulation of a major amount to be kept intact while the income earned on related investments could be used for specific/general purposes, as per arrangement with the donor.

## How to Support?

- You can fix % from your Employees' Salary after due consent. Example: PKR 100 or above
- Donate your company shares.
- Designate % of your company profit.
- Placement of Donation Boxes at your Organization, Schools & Franchises/Branches.
- Donation on sale invoice. (PKR 10 or any).
- Land Donation/ Lease/ Rent Building.

## Where we will invest?

- Islamic Banking
- Public Limited Companies
- Mutual Funds
- Certificates of Islamic Funds
- Real Estate

## Reporting

- AKFP will share receipt for Fund Collection.
- AKFP will share a bi-annual report regarding Investment & Profit Status.

## Sadqah-e-Jaria will grow

# ALKHIDMAT ENDOWMENT (وقف) FUND

## CONSENT FORM

### How Endowment Fund Works?

The Endowment Fund is planted when a charitable donor like you, donates a Sadaqah-e-Jaria.

Every year, the Endowment fund grows and generates income.

Your investment reinforces, a portion of the profit / income is granted per annum in your name to support deserving & deprived communities.

### Independent Auditor's Report to the Management Committee

#### Opinion

We have audited the financial statements of "AL-KHIDMAT FOUNDATION PAKISTAN", which comprise the statement of financial position as at **June 30, 2021** and income and expenditure account, statement of comprehensive income, statement of changes in funds, statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of "AL-KHIDMAT FOUNDATION PAKISTAN" as at **June 30, 2021**, and of its financial performance and its cash flows for the year then ended, in accordance with Accounting Standard for Not for Profit organizations (NPOs) issued by Institute of Chartered Accountants of Pakistan and the International Financial Reporting Standards issued by the International Accounting Standards Board (IASB) as notified by the Securities and Exchange Commission of Pakistan (SECP).

#### Basis for Opinion

We conducted our audit in accordance with the International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Society in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Management Committee is responsible for the preparation and fair presentation of the financial statements in accordance with the Accounting Standard for Not for Profit organizations (NPOs) issued by ICAP and the IFRS issued by the IASB as notified by the SECP, and for such internal controls as the Management Committee determines are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management Committee is responsible for assessing Society's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Society or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Society's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Society's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Society's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Society to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
