In the Name of ALLAH, the Most Gracious, the Most Merciful.
Introduction

Alkhidmat Foundation Pakistan is one of the leading, non-profit organization, fully dedicated to humanitarian services. Alkhidmat workers and volunteers continue to work tirelessly for relief of affected people across Pakistan and worldwide. Our dedicated services include disaster management, health services, education, orphan care, clean water, Mawakhat (interest free loan) and other community services.

In year 2018, we have made some adjustments to our Regional setup to ensure efficient and smooth service delivery in the country.

10 Regional Offices

150 District/City Offices
While we are all set to face-off the massive challenges of year 2019 in the field of humanitarian relief and development, it is a matter of satisfaction that we overcame the trials of 2018 undeterred. Alkhidmat Foundation Pakistan preserved its traditions and reached out the underprivileged communities without any kind of discrimination. Our self-sacrificing team of volunteers acclaimed extraordinary achievements of social service in Pakistan as well as other parts of the world. For the year 2019 also, our passion to continue this journey with great momentum remains the same.

In 2018, Alkhidmat Foundation Pakistan attained remarkable milestones in terms of rightful recognition of orphan children in the society. The Senate of Pakistan marked 15th Ramadan as National Orphans Day and the President of Pakistan hosted a reception for the orphan children at the President House.

In addition to successful functioning of our healthcare facilities, Alkhidmat Foundation Pakistan also opened a much needed state of the art hospital in Mardan. Likewise, our emergency response remained pro-active and prompt during 2018. Provision of clean and healthy drinking water has remained our priority. AKFP has expanded its network for rehabilitation and education of street children at specialized Child Protection Centers. Alkhidmat Mawakhat program has transformed many more dreams into reality by providing necessary financial support and our Community Services program also illustrated outstanding efforts to enable the destitute segments of society and the minorities to live a better life.

The support of our kind-hearted donors, well wishers, volunteers and overseas partners was also matchless. They expressed paramount trust and confidence in the abilities of our team and entrusted us with the resources to fulfill the dream of service to humanity with integrity. We look forward to a similar support and encouragement during 2019 as well, for realization of more humanitarian relief initiatives. Allah almighty may help us all to continue this journey rigorously. Ameen!

**Abdus Shakoor**  
President Alkhidmat Foundation Pakistan
Pakistan is one of the countries that have witnessed worst destruction at the hands of disasters. Natural or man-made disasters have claimed thousands of lives in Pakistan over the last two decades. Loss to personal properties and public infrastructure has another adverse impact on Pakistani society.

Alkhidmat Disaster Management program is self-sufficient and perpetual emergency response mechanism across the country. AKFP has a vast experience in Disaster Management ranging from the very first response to a calamity to the complete rehabilitation of victims and infrastructure both inside the country & abroad.

The volunteers of Disaster Management program are well-trained to handle emergency situations ranging from road accidents to huge disasters like earthquakes and floods. The capacity of these volunteers is also regularly upgraded to enhance their disaster management capabilities through a rigorous training program.

World Health Organization (WHO) has enlisted Pakistan among 57 countries with critical health workforce deficiency while the country is placed at 122nd position in terms of quality of healthcare facilities. Unfortunately Pakistan stands high in the list of top 10 countries with extreme infant mortality.

Being conscious of the situation, Alkhidmat Foundation Pakistan has established countrywide network to provide best healthcare facilities to public, irrespective of their socio-economic status. Under its umbrella currently several Mother and Child Healthcare Centers, Hospitals, Mobile Medical Camps, Ambulance Service, Diagnostic Centers and Blood Banks are functional effectively across the country including landmark projects in the remotest and most under-developed areas such as Tharparkar (Sindh) and Quetta (Balochistan).

All healthcare projects ranging from a routine OPD check up to a specialized procedure are provided to the needy and poor for free.
Despite attempts by public and private sector, low literacy rate has been a worrisome reality of Pakistan and it is estimated that there are 25 million out of school children in the country.

Alkhidmat Foundation Pakistan is running educational institutions and related facilities across Pakistan with an aim to ensure education for every Pakistani.

Both girls and boys are equally benefitted from our educational projects. In collaboration with Child Protection and Rehabilitation Trust (CPRT), Child Protection Centers are established to rehabilitate street children and prepare them to join formal educational institutions.

Alfalah Scholarship Scheme is providing scholarships to talented needy students on regular basis.

The grave condition of water scarcity is not new in Pakistan and the recent reports released by drinking water inspection authorities suggest that most of the people are drinking unhealthy water across the country. Global organizations have also placed Pakistan among countries where availability of clean drinking water is a serious issue.

Under Clean Water program, Alkhidmat Foundation Pakistan has completed hundreds of water projects that provide clean drinking water to needy communities across the country. This program ensures supply of clean drinking water in water-scarce areas as well as in big cities by installation of water pumps, handpumps and water filtration plants. In the mountainous areas, gravity flows schemes are implemented to ensure supply of water to the households.

Orphan children are considered as the most neglected segment of society worldwide, particularly in the developing countries which host most of the helpless orphan children (Pakistan has over 4.6 million orphan children). Alkhidmat Foundation Pakistan has established Orphan Care Program to provide necessary support to these vulnerable children.

**Orphan Family Support Program (OFSP)**

Under this sponsorship program, the orphan boys and girls are provided financial assistance while they live at their own homes along with their family members. This program has established clusters all across the country. Every cluster is managed by a Family Support Organizer who stays in touch with the families of these orphan children throughout the year. He also ensures that children are provided with best education, nutrition and healthcare.

‘Aghosh Homes’ is a distinctive program of Alkhidmat Foundation Pakistan dedicated to provide quality educational opportunities to orphan children. These homes provide best educational, residential, health-care and recreational facilities to the orphan residents for their academic and personal growth. Regular mentoring and counselling sessions are also organized at these centers to equip the children with highest degree of confidence.

Currently, 11 Aghosh Homes are operational in the country that includes one dedicated center at Bani Gala (Islamabad) for girls. One more Aghosh Home for girls is being contructed at Sheikhupura (Punjab)
ALKHIDMAT FOUNDATION PAKISTAN INAUGURATES AGHOSH HOME IN TURKEY
Aghosh Murree is a flagship project of Alkhidmat Foundation of Pakistan designed to provide high quality educational and boarding facilities to talented orphans. It is located on main Murree Express way about 35-Km from Islamabad in the scenic valley of Murree.

This center will be operational in 2019 and will strive to provide high class educational facilities to students of grade-6 to grade-12. It will be equipped with state-of-the-art labs for computer studies, science and research.
Under Construction Aghosh Homes

Alkhidmat Foundation Pakistan is set to develop and plan new Aghosh Homes all over the country. Six (6) Aghosh Homes are currently under-construction and four (4) others are in planning phase in different cities of the country. Just like the existing Aghosh Homes, these centers will also be dedicated to provide equal opportunities to the orphan children in the form of best educational, residential, healthcare and recreational facilities to its residents for their academic and personal growth.

To provide necessary support to the children without parents and to make sure bright and successful future for them, Alkhidmat Foundation Pakistan will also facilitate the children residing at these homes through an extensive Child Development Program for their psychological wellbeing and moral growth. Donations are sought from local and overseas donors to complete these projects at the earliest.
The high rate of unemployment is a major source of growing depression in the poverty-ridden society of Pakistan. In such a situation, a number of microfinance schemes are being run across the country. However, unlike most of such schemes, Alkhidmat Foundation Pakistan’s Mawakhat Program is based on the Islamic principle of Qarz-e-Hasna.

Under this program, the needy people are provided with interest-free loans to support their small businesses as well as to help them repay their debts. The people interested in Mawakhat Program approach local AKFP officials through an application along with required documents, and upon due consideration they receive the loan amount. The beneficiaries return the net loan amount to Alkhidmat Foundation Pakistan within an agreed time period in the form of easy installations. Any sort of additional amount is not charged.

Pakistan is facing multifarious social problems in 21st century ranging from poverty to civic ignorance and malnourishment. The country stands at 145th position at Human Development Index (HDI) and almost 50% of Pakistan’s population is deprived of basic necessities. As per HDR report 27.1% Pakistanis live under severe poverty conditions.

Alkhidmat Foundation Pakistan has vision of a stable Pakistani society and it is continuously striving to reach the people living in harsh conditions and provide them necessary assistance through its Community Services program.

The primary motto of the welfare program is to serve the deprived community by facilitating them through various interventions by local and international donors for meeting their pressing needs. These interventions are often related to weather conditions, festivals or special needs of communities.

ALKHIDMAT FOUNDATION WOMEN WING

Alkhidmat Foundation Pakistan’s mission to serve the humanity without any discrimination requires equal participation of women as they make around 49% of Pakistan’s population. That’s why Alkhidmat Foundation Women Wing was established in 2013. Female volunteers which were previously working under the banners of Alkhidmat Khawteen Trust and Alkhidmat Welfare Society in nine major cities of Pakistan expanded their relief work to 36 districts of four provinces and Azad Kashmir. Women Wing is currently working in the fields of Orphan Care, Community Services, Education, Community Centers, Mawakhat (interest free loan), Clean Water, Disaster Management and Marriage Assistance. The wing has a strong network of volunteers across Pakistan and it is a vital organ of Alkhidmat Foundation Pakistan to fulfill its mission of service to humanity.

International Youth Gathering (IYG 2018)

3-days 14th International Youth Gathering titled “Union for Peace” held in Lahore

Alkhidmat Foundation Pakistan and The Union of NGOs of the Islamic World (UNIW) arranged a three-days International Youth Gathering in Lahore under the banner of “Union for Peace”.

200 delegates from 15 countries attended the gathering. Renowned motivational speakers and other community leaders conducted different sessions. Participants of the gathering were given the opportunity to learn and share their life experiences.
Thar Complex, Tharparkar, Sindh

Pakistan’s largest desert known as Tharparkar has an ugly reality that its population is considered to be the poorest in Pakistan and is deprived of basic necessities of life in the world of 21st century. Keeping in view the harsh conditions, Alkhidmat Foundation Pakistan has devised a special vision for the region in the form of Thar Complex.

Thar Complex, a 275 million rupees project, consists of a 50-bed hospital in Mitthi, mosque, water filtration plants, water supply projects and submersible water pumps. The hospital also has Solar-Powered Health Unit which has all basic health facilities and can reach any place in the shortest time. In the future, the projects will be extended to include veterinary hospital, Aghosh Home, diagnostic center, schools, child development center, ambulance service and residential blocks.

Maintaining the pace of last year, AKFP organized a countrywide media and marketing campaign under the theme of "عشق و جهانیت" to create awareness about collective responsibility of society towards orphan children and to raise funds. AKFP engaged renowned poets, writers, sportsmen and other celebrities to ensure involvement of masses in these events. This year’s donor conferences and charity events also remained a big success and common members of the society made donations for this cause.

In year 2018, a total of 54 donor conferences were arranged across Pakistan.
