President's Message

It is a matter of immense gratitude that annual report of Alkhidmat Foundation Pakistan for the year 2017 is in your hands. We take profound pride in presenting the progress and achievements of AKFP, but our heads and souls bow before Allah almighty who has given us the strength and courage to accomplish these milestones.

We are thankful to our selfless volunteers and devoted partners who worked days and nights to transform our plans to reality and colourize our sketches. They are the real heroes who spent their hard-earned money and precious time to realize our common dreams. They have shown matchless confidence in our ability to deliver and their strong commitment and tireless efforts remain uncompromised.

This year we have strengthened our Orphan Care Program. Numbers and quality of work has increased many folds as public awareness about orphans' rights has got wider acceptance in society. Our Clean Water initiatives have also achieved several milestones and we are now even more committed to provide clean and healthy water to many communities across the country. Our response to emergencies and disasters has become more swift and agile. Furthermore, our ambulance service has set some new standards of efficiency and quality across the country. Similarly, AKFP’s healthcare and diagnostic infrastructure has also grown a lot with the inculcation of more professional and quality services. A dozen new state-of-the-art health units are ready to become operational. Our dream of ‘wheelchair for every deserving’ is steadily becoming a reality and mobility for the special souls is not a mere dream now. Working for street children has borne fruits and develop in the lives of all these underprivileged children.

But there is a lot more work to be done. Challenges to survival and decent living of humans have grown and diversified, and we will need even more innovative and versatile humanitarian and development initiatives.

Although last year, we ventured and explored new avenues of local philanthropy but a lot more has to be done in changing the culture of local charity and organizing the scattered philanthropy for betterment of the society. We need to introduce marked transparency and efficiency to our working and excellence in delivery of services. Organizing and polishing more and more human resources is the key to efficient humanitarian and progressive initiatives.

Engaging youth in our last year’s operations and service delivery has also set the stage for more vigorous engagement of youth in shaping our plans and achieving our goals in future.

Despite all this, we believe the journey has just begun and we surely need active support of our passionate volunteers, ambassadors and trustworthy partners to reach out more people and deliver services to more and more vulnerable people and communities around the world on a larger scale.

ORPHAN CARE PROGRAM

According to an estimate, Pakistan home to over 4.2 million orphan children. These children live in underprivileged situation along with their helpless families and are forced to go through unfavourable circumstances to survive in the society. To protect the basic rights of these children, Alkhidmat Foundation Pakistan has established a countrywide network to provide financial assistance to orphans under Family Support Program. This support is aimed to ensure provision of education to the orphan children and meet primary needs of their families. This program is working on two models:

**Orphan Family Support Program (OFSP)**

Orphan Family Support Program is to provide support to the children who lost either one or both of their parents—and hence also lost a vital source of support—at their own homes. Currently the Orphan Care Program is successfully run in all provinces of Pakistan as well as Azad Jammu & Kashmir and Gilgit Baltistan. Each cluster is administrated by an in-charge who, along with local community looks after the needs of the children.

Under-Construction Aghosh Homes

Alkhidmat Foundation Pakistan is set to develop and plan new Aghosh Homes all over the country. Five Aghosh Homes are under construction and 6 in planning phase. World Orphans Day

According to UNICEF’s survey, Pakistan is home to approximately 4.2 Million orphan children. Moreover, a major percentage of these orphan children are deprived of adequate nutrition, education, health facilities and other basic facilities. The number of orphans (hundreds and thousands) makes the task of assisting them extremely difficult.

Alkhidmat Foundation Pakistan decided to celebrate the 15th Ramadan as ‘World Orphans Day’ (Youm-e- Yatama). The event was collectively celebrated under the umbrella of Pakistan Forum for Orphan Children, Alkhidmat Foundation Pakistan and some other education imparting NGOs. Pakistan Forum for orphan children organized walks, seminars, conferences and special lectures in various educational institutions, throughout the country to celebrate the event.
MAWAKHAT PROGRAM

The high rate of unemployment is a major source of growing depression in the poverty-ridden society of Pakistan. In such a situation, a number of micro-finance schemes are being run across the country. However, unlike most of such schemes, Alkhidmat Foundation Pakistan's Mawakhat Program is based on the Islamic principle of Qarz-e-Hasna. Under this program, the needy people are provided with interest-free loans to support their small businesses as well as to help them repay their debts.

AKFP also launched “Niamat Ullah Khan Lifetime Achievement Award” to recognize the humanitarian services of legendary philanthropists from Pakistan.

AKFP aims to engage the youth in all of its social service projects across the country by providing them with a chance to work as volunteers. AKFP Volunteer Management department takes specific measurements for this purpose all around the year, ranging from networking with students at educational institutions to their practical involvement in the projects of their interest.
I take pride while sharing the fact that the number of people benefitting from AKFP’s services has reached 97,15,000 in 2017. The Future Lines:
The year 2017 was full of energy and enthusiasm for all our volunteers and staff. The engine fully is energized and we are very much excited for the future and all the amazing things coming ahead. Despite several challenges posed to the development sector in Pakistan in recent time, AKFP has delivered on its promises of last year, Alhamdulillah!

Our Orphan Family Support Program remained on-target. We also managed to start construction of another three more Aghosh Homes. Our Aghosh Home for girls in Islamabad has emerged as success story. 2017 was remarkable for our Health Services program as three new MCHCs have started delivering services including our all-out free MCHC facility at Mithi, Tharparkar: the largest desert of Asia. Ambulance Fleet Management has got on track and our Helpline 1023 is creating an impact.

Last year, we organized our first overseas conference in Istanbul on the issue of Rohingya refugees. We managed to cobble a consortium of 27 organizations for the cause. Our Ramadan National Fundraising and Awareness Campaign has boosted our morale. Development of software for different programs and departments gained momentum and launching of our digital project mapping application has thrilled our well-wishers.

Alkhidmat Youth Gathering (AYG 2017) has enormously encouraged our youth ambassadors. International Youth Gathering (IYG 2018) has been planned and participation of 500+ youth from around the world will open new avenues for engagement of youngsters in welfare projects. Our volunteers and staff are looking forward to the future with more optimism and gearing up for new horizons. ‘This is not the end; this is not even the beginning of the end but end of the beginning’.
